

Sepsis: When Infections Become a Medical Emergency

THURSDAY, MAY 3

CAMC Memorial Hospital campus, WVU Building
3110 MacCorkle Ave. SE • Charleston, WV 25304
FREE parking

.....

■ **5:30 to 6:30 p.m. – Displays and refreshments**

Blood pressure screenings, Advance Medical Directives/Living Wills, information about CAMC programs and services and much more.

■ **6:30 to 8 p.m. – Program and Question & Answer**

Sepsis affects more than 26 million people worldwide every year – but do you know what it is? It's a medical emergency that, with a variety of strategies, can be avoided. Join us for a FREE community event with our panel of experts to learn what sepsis is, how to identify its early stages, and how to prevent and treat it with simple public health techniques and appropriate use of antibiotics. Use this knowledge to save lives! A question and answer session with our panel will follow the presentation.

Speakers include:

- Daniel Foster, MD – Moderator, CAMC Physician Advisor
- Adam Crawford, DO – Director of Emergency Medicine, General Hospital
- Meredith Todd, PharmD, BCPS – Antimicrobial Stewardship Clinical Specialist
- Michael R. Brumage, MD, MPH, FACP, FACPM – Director, WV Office of Drug Control Policy

To register, visit camcinstitute.org/conference, call **(304) 388-9960** or email camcinstitute@camc.org.
