Program overview and objectives

This will be the 37th midwinter cardiovascular conference held at Snowshoe and will be co-provided by CAMC Health Education and Research Institute and Duke University Division of Cardiology. The conference is designed to assist the physician caring for adult patients with complex cardiac problems and traditionally has dealt with the various difficult management problems that occur in patients with cardiovascular disease

In response to evaluation requests, more opportunities for case reports, discussion, and simultaneous breakout sessions for nurses and physicians on Saturday afternoon are part of this year's offerings. This program is designed for cardiologists, internists, family practitioners, hospitalists, and emergency medicine practitioners, nurse practitioners and physician assistants. The course is limited to 100 participants.

Upon completion of this program participants should be able to:

- List management strategies for common cardiac emergencies
- Discuss Percutaneous Valve Repair/Replacement
- Debate complex areas in management of valvular disease
- Review atrial fibrillation and stroke prevention
- Detail management issues in heart failure
- Review and discuss clinical trials and journal reviews

Accreditation

In support of improving patient care, CAMC Health Education and Research Institute is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
