

Pain 101: Management Strategies in the Midst of the Opioid Epidemic

 **TUESDAY, OCTOBER 9, 2018**

 **CAMC Memorial Hospital campus, WVU Building**

3110 MacCorkle Ave. SE
Charleston, WV 25304

 **FREE parking**

 **FREE community event**

5:30 to 6:30 p.m. Displays and refreshments

Blood pressure screenings, Advance Medical Directives/Living Wills, information on CAMC programs and services, medication review with a pharmacist and much more.

6:30 to 8 p.m. Program, Question & Answer

We all experience pain in our lives, but what are the safest and most effective options for getting relief? How do we reduce our risk for misuse of pain medication or addiction? Join us for an interactive session with our panel of experts to discuss various strategies, including over-the-counter medication, prescription drugs and non-pharmacological therapies. Mindfulness meditation for chronic pain will also be explored. A question and answer session with the panel will follow.

Speakers include:

- **Daniel Foster, MD**
Moderator, Physician Community Advisor, CAMC
- **Leah A. Hall, PharmD, BCPS, BCGP**
Assistant Professor, Department of Pharmacy Practice, University of Charleston School of Pharmacy
- **Brittain McJunkin, MD, FACP**
Professor of Medicine, WVU Health Sciences Center, Charleston Division
- **Hani A. Chaabo, MD**
Resident, Family Medicine Program, CAMC
